Professional Summary

Aspiring Cybersecurity Specialist with expertise in Ethical Hacking, Network Security, and Full-Stack Development. Currently pursuing BCA from RMLAU, with hands-on experience in cybersecurity tools, penetration testing, and secure web development. Passionate about building secure applications and participating in CTF challenges. Strong problem-solving skills and experience in real-world security research.

Education

Bachelor of Computer Applications (BCA) Dr. Ram Manohar Lohia Avadh University (RMLAU) Expected Graduation: June 2025

Technical Skills

- Programming Languages: Python, HTML, CSS, JavaScript, Java, Data Structures & Algorithms (DSA)
- Cybersecurity & Networking: Ethical Hacking, Network Security, Nmap, Metasploit, Burp Suite, Wireshark
- Development Tools: Git, Docker, Postman, VS Code
- Databases: PostgreSQL, MongoDB

Projects

ReconX - Cybersecurity Reconnaissance Tool

(Jan 2025 - Present)

Developed an advanced reconnaissance tool for penetration testing and OSINT (Open Source Intelligence) gathering.

Used by 150+ security researchers worldwide.

Password Manager – Secure Vault

(Aug 2024 - Dec 2024)

Created a password management application with AES-256 encryption.

Implemented using React.js (Frontend) & FastAPI/Django (Backend).

Stored over 10,000+ encrypted passwords securely.

Other Security & Development Projects

(2025 - Present)

Worked on multiple security tools for vulnerability detection and prevention.

Participated in Capture The Flag (CTF) challenges and cybersecurity research.

Helped identify 10+ critical security vulnerabilities in open-source applications.

Soft Skills

- Problem-Solving
- Analytical Thinking
- Team Collaboration
- Time Management
- Effective Communication
- Continuous Learning

Languages

• English, Hindi

Availability

Open to internship and job opportunities in Cybersecurity, Networking, and Secure Web Development.
